

OUR ADA HANDRAIL, *now with the strength and style of aluminum*

Sturdier, stronger and more durable than ever before, Trex® ADA compliant handrails are now made from powder-coated aluminum. Each component is engineered to be easy to install, easy to maintain and even easier to hold onto.

- » Aluminum possesses unparalleled strength and stability
- » Continuously graspable handrail
- » Washes clean with soap and water for low maintenance
- » AAMA-2604 powder coating resists fading and corrosion
- » Includes fasteners for installation on both aluminum and composite posts
- » Available in three colors: Charcoal Black, Bronze, Classic White
